

50102 to 50206—Continued.

50193. *VITEX REHMANNI* Guerke. Verbenaceæ.

"(No. 226/19.) Potgietersrust. *Mookwele* (Sesutu). Common and characteristic tree up to 20 feet high."

A shrub with opposite 3 or 5 foliolate leaves with elliptic profusely glandular leaflets, axillary cymes of bell-shaped flowers, and cone-shaped drupes about a quarter of an inch long. It is native to Natal and the Kalahari region, Transvaal. (Adapted from *Thiselton-Dyer, Flora Capensis, vol. 5, sec. 1, p. 214.*)

50194 and 50195. *ZIZIPHUS MUCRONATA* Willd. Rhamnaceæ.

A much-branched tree, 15 to 20 feet high, found in South Africa and central Africa. The ovate leaves are up to 2 inches in length, the yellowish flowers are borne in axillary cymes, and the red drupes are about the size of cherries. (Adapted from *Harvey and Sonder, Flora Capensis, vol. 1, p. 475.*)

50194. "Valuable wood."

50195. "Good wood for fence posts, hard and durable and drought resistant."

50196. *ZIZIPHUS* sp. Rhamnaceæ.

"*Kankole*. Elizabethville, Belgian Kongo."

50197. *ZIZIPHUS* sp. Rhamnaceæ.

"(No. 227/19.) Potgietersrust."

50198. *ZIZIPHUS* sp. Rhamnaceæ.

"(No. 243/19.) From the Matoppos, Matabeleland. Much like *Ziziphus mucronata*, but the fruits are much larger."

50199. (Undetermined.)

"(No. 142/19.) *Mooloo'alwa*. Elizabethville, Belgian Kongo. There are two trees going under this name; this is the lesser or 'kiloko' sort."

50200. (Undetermined.)

"Vereeniging, Transvaal."

50201. (Undetermined.)

"(No. 234/19.) Potgietersrust. An ornamental shrub."

50202. (Undetermined.)

"Shrub or small tree."

50203. (Undetermined.)

"(No. 225/19.) Potgietersrust. *Mookwerikweri* (Sesutu). Small evergreen tree."

50204. (Undetermined.)

"*Maviling hombwa*. Tree near Elizabethville, Belgian Kongo."

50205. (Undetermined.)

"Collected in Manicaland, Rhodesia, by Maj. R. Gordon."

50206. (Undetermined.)

"*Kimpampa*. Elizabethville, Belgian Kongo. Ornamental tree."

50207. BRACHYSTEGLIA sp. Cæsalpiniaceæ.

From Kafue, Northern Rhodesia. Seeds collected by Dr. H. L. Shantz, Agricultural Explorer of the United States Department of Agriculture. Numbered June 7, 1920.

"(No. 300 in part. Bolenga Camp on the Kafue River. November 25, 1919.) *Mombo* (Chinyanja). A large, spreading, acacia-like tree with large pods and large, flat seeds; it is most useful as well as ornamental. The seed is eaten by the natives
